EMBROIDERY ACCESSORIES

BOBBINS

Most sewing machines come with 3-5 bobbins when you buy them. The average sewer carries 20 – 30 bobbins for each machine they own; so, you can never have enough bobbins. And because you must use the bobbins that are made for your machine we have many options!

AQUA FILM TOPPING

Aqua film topping keeps stitches from sinking into the nap or texture of the fabric. It's perfect for sewing on sheer, lightweight, and fine fabrics when all traces of the backing need to be removed from the fabric. We carry several options from reliable brands you trust!

SPECIALTY CLAMPS & MAGNETIC HOOPS

When it comes to sewing, we want to help you sew better with the top tools in the industry. We have a variety of accessories for the industrial embroiderer including cap frames, clamps, machine stands, and much more!
