CLASS DESCRIPTIONS

SCREEN PRINT: BASICS

\$99

This fundamental course will educate participants on the art of screen printing from start to finish including ink selection, fabric selection, creating screens, press set-up and breakdown. GSG's Textile Application Specialist, Mark Suhadolnik, will review components and procedures required to produce the best quality screens. Class tuition includes a sample starter kit.

SCREEN PRINT: SPECIAL EFFECTS

\$159

Want to gain a competitive edge on your competition? Take your printing to the next level! Mark Suhadolnik, GSG's Textile Application Specialist, will review specialty bases, mixing colors, setting up the press and its parameters, as well as creating the proper stencils. Class tuition includes a special effect instructional swatch book.

SCREEN PRINT: AUTO

\$299

This unique two-day hands-on course instructed by Mark Suhadolnik, GSG's Textile Application Specialist, is an immersive hands-on session for operating an automatic screen-printing press. Maximize print shop efficiency by obtaining a strong understanding of pressure setting, squeegee angles, registration, print order, set up, breakdown, and so much more. An introduction to discharge and water-based printing will be given, including stencil preparation, ink mixing, and printing perimeters. Class tuition includes a sample starter kit.

SCREEN PRINT: ART PREP

\$399

If you are an apparel professional involved in the art-to-garment process, this full day art production and prep workshop was designed for you! Lon Winters, Founder & Managing Director of Graphic Elephants and his award-winning art staff, will review Adobe Illustrator, Adobe Photoshop, Separation Studio, and the execution through screen making. This workshop will help you understand the specific graphic needs for screen printing and how to execute them. Bring your laptops to class and follow alongside Lon and his team to learn their tips and tricks on how they execute their printing from the art perspective!

DIRECT-TO-GARMENT

\$69

This GSG U class will help you understand the basics of Direct-to-Garment printing. Understand your Epson or Brother printer with maintenance know-how, decorating ideas, and useful tips! Learn important factors when marketing your products, and best practices for pricing your creations.

DYE-SUBLIMATION

\$49

Learn how to turn sublimation blanks into a personalized product that can make a profit for your company. Epson SureColor F-series printers can help transform the demand for custom-printed products into bigger profits for your business. Morgan Lynn, Account Manager – Professional Imaging, focuses on how the processes work, hands-on printing, machine maintenance, pricing and more.

EMBROIDERY: BASICS

\$99

Learn techniques to successful embroidery on a wide variety of fabrics and materials, as well as the processes for selecting appropriate stabilizers, needles and holding techniques. You'll discover tips and tricks for hoop placement, needle selection, thread selection, applique application, and pricing your services for profit.

EMBROIDERY MAINTENANCE

\$99

Learn cleaning techniques, oiling and reasing, and what to keep on hand in your shop. Discover techniques for troubleshooting problems such as bird nesting, caterpillars, shredding thread, and more. Keep your machine running smoothly and reduce down time with this informative GSG U course!

2020 CLASS DESCRIPTIONS

WRAP INSTALLATION

\$399

Learn basic wrap film installation techniques from professional installer Jeff Wagner of J3industries. Experience hands on training in auto graphics application as well as window, wall, reflective, and floor graphics in this two-day course. Learn about material selection and testing, tools and application products, cleaning and prepping surfaces, and film removal. Class tuition includes a wrap tool kit.

3M WRAP INSTALLATION / COLOR MANAGEMENT

\$399

Join 3M & GSG for a one of a kind training built to up your game from the shop to the streets! 3M and it's experienced technical team have solutions to improve color control for increased repeatability, consistency and lower total costs. Combine that with a dedicated break out for graphic installers and you learn the best tricks of the trade to keep your work pristine from the press to the finished product!

3M MOBILE TRAINING VEHICLE

\$219

Jump start your installation skills with 3M and GSG! 3M has rolled out a Mobile Training Vehicle to deliver hands-on training on the road. The 40-foot mobile application center is fully equipped to provide training on the application of graphics and architectural films. Participants can expect to learn up-to-date and relevant installation techniques, industry best practices and 3M specific solutions. Class tuition includes a wrap tool kit.

ARLON WRAP INSTALLATION

\$199

Further your skill set with Arlon's one day hands-on training session! You will learn techniques and tips that will help your business shorten wrap installation times and achieve a flawless application. Arlon's expert installers will cover graphic preparation and alignment, installing on horizontal surfaces, deep channels in cargo vans, riveted trailer sides, trimming and much more. Class tuition includes a wrap tool kit.

AVERY WRAP INSTALLATION

\$299

Digital Full Print Hands-On Workshop taught by vinyl wrap experts focus on Avery Dennison digital films used in a wide variety of applications. This session teaches basic and intermediate installers the fundamentals of walls, floors, windows and full print vehicle wraps.

ROLAND BORN TO WRAP

\$749

Smooth a path to vehicle wrap success and profit with Born to Wrap - Basics and Beyond workshops from Roland DGA. This extensive two-day workshop will teach you everything you need to know about the vehicle wrap business. Get the complete low-down, from printing and application to the tools, techniques and tricks of the wrap professionals. Class tuition includes a wrap tool kit.

ROLAND PRINTER MAINTENANCE

\$129

Discover easy cleaning and maintenance tips that will help to extend the working life of your Roland printer and increase its dependability. Daily cleaning also minimizes downtime and costly reprints and repairs. Trained Roland instructors will guide you through the steps of cleaning, diagnosing problems, and replacing consumable parts. Trainers will also be available to answer any questions and ensure users are getting the most value out of your printer. The class covers any make or model of a Roland printer.
